

En-Safe has been providing professional training and consulting services for Industrial, Commercial, Institution, and Construction sectors since 1992. En-Safe is a privately owned company conducting business in YOUR community and has trained over 3,000 companies.

Consider the following:

◆ En-Safe certificate courses are designed and approved by a Professional Engineer to meet or exceed legislative and industry standards and best practices. Also, courses strive to meet ANSI® Z490.1-2009 (ANSI Criteria for Accepted Practices in Safety, Health and Environmental Training) or they are in the process of being retooled to meet this standard.

◆ En-Safe's specialization is on-site training.

◆ Training can be customized to include specific operations or procedures which have been implemented by your organization.

◆ To meet legislative requirements, employers may be required to provide additional job specific training.

◆ To supplement selected training programs, pre and post consulting is available.

◆ Offers a 100% money back guarantee.

Professional Engineers
Ontario

"Authorized by the Association of Professional Engineers of Ontario to offer professional engineering services."

Construction Heat ROT Awareness Training

CH-O2 certificate under Ontario Regulation 215/01 made under the Technical Standards and Safety Act, 2000, states that a person who is the holder of a CH-O2 certificate or the holder of a record of training for the purpose may activate a propane, natural gas or *oil-fired construction heater or torch that has an input of 400,000 Btuh or less, and connect it to or disconnect it from piping, tubing, a refuelling appliance, a container or a natural gas meter. En-Safe is a TSSA accredited training provider. (TSSA TP #000155415)

**NOTE: With respect to the oil designated ROT it is restricted to activating a fuel oil-fired direct or indirect construction heater with an integral fuel tank and/or construction heater with separate fuel tank that has been installed by an oil burner technician (OBT). It does not permit the ROT holder to install piping or service equipment.*

Construction Heat ROTs

- ◆ **CH-O2 Fuel Refresher - 8-9 hours (Propane and Natural Gas only)** ** See NOTE for restrictions
- ◆ **CH-O2 - Propane, Natural Gas and Oil**
- ◆ **PCH-O2 - Propane only**
- ◆ **NGCH-O2 - Natural Gas only**
- ◆ **OCH-O2 - Oil only**

Also Available

- ◆ Propane Construction Torch Application
- ◆ Construction Heat Awareness
- ◆ Propane BBQ Application

****NOTE: FUEL REFRESHER**—Participants who have previously taken a Construction Heat ROT Course (Propane, Natural Gas or Fuel Combo (Propane and Natural Gas)) can take the 8-9 hour Fuel Refresher course which will extend their applicable ROT for another 3 years.

- ◆ Participants that **have not** completed a ROT previously **will be** qualified to connect and disconnect from a propane cylinder and activate a propane construction heater
- ◆ Participants that **have not** taken a **Natural Gas ROT** previously **will not be** qualified to connect/disconnect from a natural gas meter set or activate the initial lighting of a Natural Gas Heater with En-Safe's Fuel Refresher course. However, the ROT holder **will be** qualified to inspect a Natural Gas Heater while in operation and re-ignite a Natural Gas Heater

Construction Heat ROTs have a legislated 3 year expiry

Training Program Gap Analysis available!

Consulting Available

- ◆ Pre & Post Training Element Design
 - ◆ Working at Heights
 - ◆ Confined Space
 - ◆ Lift Truck
 - ◆ Hazardous Materials
 - ◆ Construction Heat
 - ◆ Workplace Violence and Harassment
- ◆ Training Program Gap Analysis
 - ◆ Accident Investigation
 - ◆ Fatalities and Criticals
 - ◆ Audits
 - ◆ Customized Documentation
 - ◆ Hazard Assessments
 - ◆ OHS Program Design
 - ◆ Engineering

- ◆ To receive an En-Safe issued ROT wallet card and certificate, stating the participant's successful completion of the training session, the participant must have attended and successfully completed both the theoretical and practical portions (if applicable) of the training session. Typically, an 80% on the theoretical evaluation is required.
- ◆ The participant's name appearing on the ROT wallet cards and certificates is transcribed by En-Safe from the Record of Attendance (ROA) sheet which is completed by the participant(s) during the training session. Each participant receives an individual registration number which is entered into En-Safe's training database and is available upon request by the employer or an inspector. En-Safe retains the original ROA, written theoretical and participant practicals or training sheets signed by each participant for a minimum of 7 years. A copy of the ROA, for on-site classes, will be forwarded to your company for their official records. Please note that the certificates or ROT wallet cards signify that the participant(s) has/have attended the training session. The certificates or ROT wallet cards do not represent a license or permit. A representative of the employer must sign the ROT wallet cards and the certificates. These ROT wallet cards have an expiry date and should be signed using permanent ink to ensure that signatures do not rub off over time.
- ◆ Please be advised that En-Safe's training is conducted in English. To be successful to En-Safe's standards, participants must comprehend the English language (both oral and written). Should interpreters be required, they are to be approved by En-Safe prior to the delivery of the training session. Should any verbal testing be conducted, or interpreters required, participants will receive an En-Safe issued certificate stating that the participant "attended" the class.
- ◆ En-Safe, their Associates, Employees, and/or Subcontractors shall be indemnified, and will in no way, be held responsible for any accidents, incidents or occurrences related to any of our training courses, products or professional services.
- ◆ Please be advised that En-Safe's courses are Awareness Training Courses only and do not necessarily meet the requirements of "Competent Worker/Person" training. En-Safe's courses are generic in nature and do not cover all possible job and site applications. To meet legislative requirements the Employer and/or Supervisor may also be required to provide additional training and/or instruction. This could include, but is not limited to, Job Specific Training (JST), an annual review and/or refreshers. Topics could detail specific emergency procedures, instructions with relation to specific equipment, hazards and potential or actual dangers that their employee(s) may encounter.
- ◆ En-Safe reserves the right to cancel and/or reschedule any courses as well as to remove any participants from a course, while providing a full refund.
